

During the summer of 2014, new computers will be installed in the following classrooms. Depending on the location, they will be either iMacs or Mac Minis, and all of them will run Mac 10.9 (Mavericks) and Windows 7.

**Note:** New iMacs *do not have optical disc drives* (i.e., CD/DVD players). This was a decision taken by Apple as part of a broader shift away from this technology.

Disc drives will be available from the Help Desk should you need one in these classrooms.

#### New iMac

AAC 101

McCook 121

McCook 205

McCook 303

McCook 307

McCook 309A

McCook 313

Nutt MECC Math Center

Seabury N128

Seabury N129

Seabury N130

Seabury N217

Seabury S201

Seabury T121

Seabury T302

Seabury T308

Seabury T408

#### New Mac Mini

Clement 105

McCook Auditorium

Seabury S215

Also, student workstations in the following computer labs will have new iMacs installed.

#### New iMacs

LITC 135 (Blume Lab)

Seabury S205 (Lazay Computer Center)
