

# Class Search

You can search the live version of the Schedule of Classes for up-to-date information as you are working with students.

To access this function, start on the Faculty Center page (or go to the Self Service page) and click on Class Search.

---

[Class Search](#) [Browse Catalog](#) [Learning Management](#)

1. Select the appropriate term, subject and course number to find a particular course, or select Requirement Designation to find a course that will meet a specific General Education requirement.

2. You can also click on Additional Search Criteria for more search options such as particular meeting days or session (such as 1<sup>st</sup> or 2<sup>nd</sup> quarter).
3. The system defaults to search for only open classes, but you can uncheck that box to find all classes regardless of status.
