DISTINGUISHED LECTURE SERIES

Free Your Mind: Social Change Begins with Software

LESLIE HAWTHORN

**Thursday, November 19
7:30 p.m.**

**Washington Room, Mather Hall, Second Floor
Trinity College, Hartford, Connecticut**

Reception to follow

Leslie Hawthorn is a program manager for Google's Open Source Programs Office, where she's the community manager for the Google Summer of Code Program. She conceived and managed the Google Highly Open Participation Contest, the world's first global initiative to get pre-university students involved in all aspects of open source software development. Leslie serves on the advisory boards of the GNOME Foundation and the Open Source Business Resource. She serves on the Steering Committee for the Humanitarian Free and Open Source Software Project.

Prior to joining Google, Leslie got her feet wet in Silicon Valley high tech at a small communications semiconductor startup, where she worked in marketing and public relations. She holds an Honors B.A. in English Language and Literature from U.C. Berkeley.
