(patricia.maisch@trincoll.edu)

Edward Stringham will give his inaugural lecture as a new faculty member at Trinity through a discussion of his latest book, PRIVATE GOVERNANCE, in which he explains how people spontaneously create organizations and how a “club” is a group whereby people voluntarily join together. He will make his point through a well-documented and wide range of deeply researched historical examples and will conclude with a short Q&A session. DON'T MISS THIS ONE!!!
