Randal O'Toole is the author of *Gridlock: Why We’re Stuck in Traffic and What to do About it.*

He is a Cato Institute Senior Fellow working on urban growth, public land, and transportation issues. O'Toole's research on national forest management, culminating in his 1988 book, *Reforming the Forest Service,* has had a major influence on Forest Service policy and on-the-ground management. His analysis of urban land-use and transportation issues, brought together in his 2001 book, *The Vanishing Automobile and Other Urban Myths,* has influenced decisions in cities across the country. In his most recent book, *The Best-Laid Plans,* O'Toole calls for repealing federal, state, and local planning laws and proposes reforms that can help solve social and environmental problems without heavy-handed government regulation.
