

3D Printing Workshops

All will be held in the Blume Computer lab LITC 119.

Registration appreciated but not required: <https://libcal.trincoll.edu/calendar/edtech>

Come learn about 3D printing while designing and printing a unique work of art (makes a great gift idea for family and friends)

3D Printing: Create a Customized Keychain using SketchUp

Get an overview of 3D printing technology and applications then learn how to design a customizable key chain you can then print for FREE!

12/11 - 2-3pm

12/13 - 12-1pm

12/17 - 3-4pm

3D Printing Your Voice

Get an overview of 3D printing technology and applications then during a hands on workshop you will record your voice and convert an image of the sound waves into a 3D printable model. No previous experience or tech skills required!

12/12 – 2-3pm

12/14 – 12-1pm
