

Student Poster Presentation

Tuesday, December 11th from 10-12 noon
Social Science Center 2nd Floor of Williams

Students taking Econometrics (Economics 318) will be available in the Social Science Center - on the second floor of Williams - to discuss the results of their projects on **Tuesday, December 11th from 10 to 12 noon**. All are invited to come.

This is not a series of student presentations. Rather, each of our five groups of students has prepared a poster that summarizes their model and the results of their project.

You can wander around, have a few refreshments, and ask students to explain their results to you. Listed below are the topics of the studies.

Want to buy a classic car? We will show you how to get a good deal!

Jose Fabian, Trevor Bellow, James Sheehy

Does your family structure as a child affect your educational level as an adult?

Erica Bruni, Nicole Quinlan, Devan Walsh

Which pitchers return from Tommy John elbow surgery “better”?

Michael Burns, Gordon Coulter, Thomas Reynolds, Lincoln Rosenblood

In the European Union do attitudes towards immigrants affect the presence of immigrants or does the presence of immigrants affect attitudes? Or is it both?

Hanae Bouazza, Elena Pellegrini, Brielle Jones

Want to make your city a more attractive tourist destination? We have some suggestions for you!

Will Baker, Kevin Boland, Kevin LoBianco
