

Lab Assistant Student Worker Position
Department of Music/Music Production Minor

Description: The Lab Assistant will be primarily in charge of helping students with the use of the recording studio, and associated practice rooms / isolation booths. Additionally, they will be expected to keep the studio, patch bay, cables, recording spaces, mic stands, and microphones organized properly. The Lab Assistant will also be in charge of helping keep studio equipment inventory, and insuring that students utilize equipment in a way that does not cause any damage.

Responsibilities: Assist students with recording/lab projects, keep the studio and associated equipment organized, help students with setup and tear down during sessions, consult with students regarding the use of the patch bay and patch panels in various rooms, help run & setup ProTools sessions.

Experience: Experience with ProTools and multitrack recording is required. Must have working knowledge of microphones, phantom power, and use of basic studio tools such as EQ, mic pres, and compressors. Experience with the C24, or other hybrid mixer/control surface desired.
