Study away is an integral part of a college experience, and Trinity College encourages students to take advantage of a summer, semester, or full-year program, offering immersive living and learning experiences in some of the world’s great cities.

Trinity’s study-away programs offer an array of strong academic opportunities appropriate for students from all academic disciplines. These programs have been designed by Trinity College faculty to integrate and enhance the College curriculum at the home campus. With academic courses, intensive language programs, internships, and field-study opportunities, students can engage in life-changing learning experiences in and out of the classroom while exploring the universals and differences of urban environments.

In addition to Trinity’s own programs, students can select from more than 90 approved study-away programs in the United States and throughout the world.

The Office of Study Away (OSA) assists students interested in studying away throughout the entire study-away process. We also assist visiting students interested in applying to Trinity-administered programs. From study-away advising, information sessions, and pre-departure orientation to reinvention, the OSA is available to students before, during, and after they study away. We aim to provide all of the tools students need for a successful academic and personal experience in a new environment.

The Office of Study Away maintains nine Trinity College-administered semester/year programs.

- Barcelona, Spain
- Buenos Aires, Argentina
- Cape Town, South Africa
- New York City, USA
- Paris, France
- Rome, Italy
- Shanghai, China
- Port of Spain, Trinidad
- Vienna, Austria

Faculty-led summer programs vary by year and are currently offered in Asia, Europe, and the Middle East.
