

Tuition Exchange Program

Trinity College is proud to participate in the Tuition Exchange (TE) Program. Over 660 colleges and universities participate in this program, through which dependents of eligible employees at member institutions may apply for tuition exchange at other participating institutions. Please see www.tuitionexchange.org for additional details regarding the program. Eligibility requirements for employees are determined by the sending (export) college or university, while Trinity College determines admissions policies and standards for its enrolling (import) candidates. All participating institutions are expected to maintain a balance between “imports” and “exports.”
