

TrinTrade Shopping Website

Ted Tierney '21
Advisor: Peter Yoon, Department of
Computer Science
Trinity College, Hartford CT

Introduction

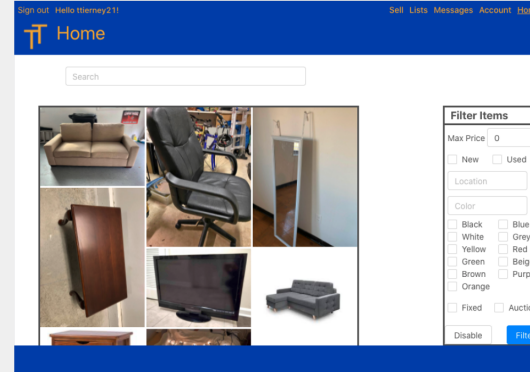

TrinTrade is a shopping website unique to students of Trinity College for the purpose of buying and selling dorm room items including anything from couches and coffee tables to textbooks.

Motivation

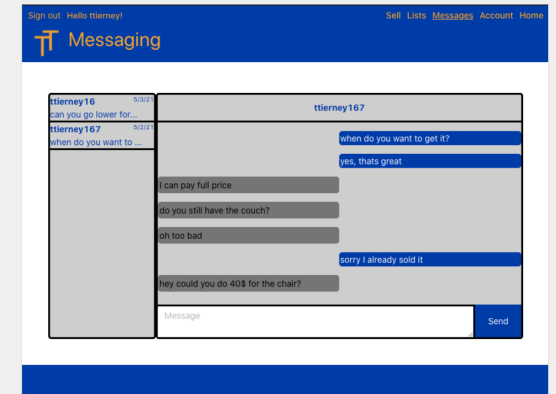

Shopping websites like eBay and craigslist have been around for 25 years but failed to specialize their services to specific demographics like college students. Every year Trinity students buy furniture and other necessities for their dorm rooms and end up leaving it on the street at the conclusion of the year, so I thought I had the idea to setup a platform so that students can save money and time furnishing their dorm rooms.

Home Page

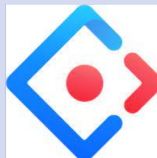

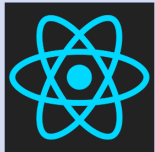

For browsing and searching for items. Click on the image of an item and get more info!

Messaging page

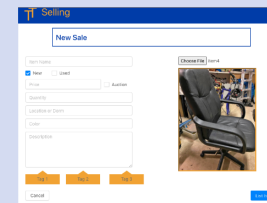

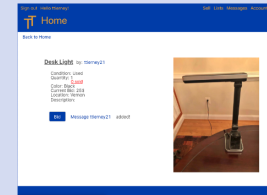

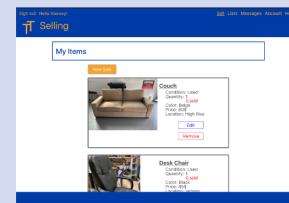

Softwares and Libraries

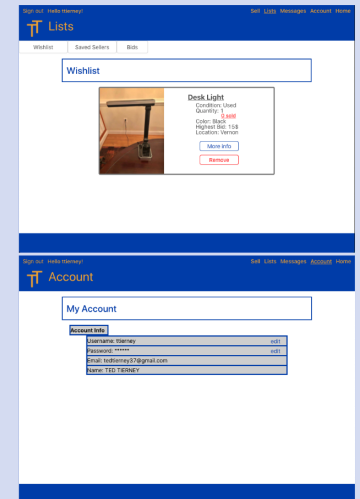

Uploading and Viewing items

The top right page depicts what a potential buyer would see after clicking an item. The bottom 2 show what a seller would see when looking at their existing items and when adding a new one.

Lists page

includes a wishlist, saved sellers list and bids
