RESEARCH PROJECT
Presentation Guide

Presentations should include the following elements:

- ✅ Why you chose the project

- ✅ Your research question

- ✅ A summary of your literature review: What articles, books or theories did you use to guide your research? How does your research fit with, expand on, or challenge the literature on the topic?

- ✅ Methodology – How did you go about the research? What methods did you use?

- ✅ Findings – What did you learn? How do your findings fit with the literature? What are the limitations of your findings?

- ✅ Prospects for future research – for you or for another researcher
