

# Trinity College – Registrar’s Office

## Summer 2022

### **Other Important Registration Information**

#### **IDP Students**

IDP students can register at the same time as other students, March 1, 2022, at 7:00 AM.

#### **Courses of Instruction**

Courses are identified by numbers that range from 100 to 999:

100 - 299 = Lower Division courses

300 - 499 = Upper Division courses

800 - 999 = Graduate courses

#### **Graduate Courses**

Undergraduates who wish to enroll in a graduate course (800-level) should verify that the course is open to undergraduate students. If so, students must secure permission of their advisor, the course instructor and the Office of Graduate Studies.

#### **Permission of Instructor**

All courses requiring Permission of the Instructor (“PI”) are so indicated with a “Y” (yes) in the “Permission Required” column. To enroll in these “PI” courses, students must obtain a Permission of Instructor Number (PIN), a 6-digit number that students will enter online when registering for that course. Students obtain the PIN from the instructor during Advising Week and they can enter this number during the registration process.

Some classes may be made Permission of Instructor after the start of the registration period, generally because the course is closed and the instructor is maintaining a waiting list of students wishing to enroll. If this status has changed, you will need to contact the instructor in order to register.

#### **Curricular Requirements**

Students are responsible for enrolling in courses enabling them to attain writing and mathematics proficiency, and to satisfy the requirements for General-Education Distribution, as necessary. Consult the Trinity College Bulletin and the Student Handbook for a detailed explanation of those requirements and the courses appropriate to them. Students entering in Fall 2021 and later will be subject to the requirements of the Trinity + curriculum.

#### **Course Credits and Course Load**

All students entering prior to Fall 2021 are able to graduate with a minimum of 34.5 credits provided that all other graduation requirements have been filled. Students entering in Fall 2021 and after are required to complete 35 course credits, at least 32 of which are academic credits. Students can enroll in

up to 2.00 course credits in each summer session, for a maximum of 4.00 course credits across the Summer. All summer session courses must be taken on a graded basis. Students cannot choose the pass/low pass/fail option for summer courses.

### **Grading System**

#### Undergraduate Grades

GRADE	QUALITY POINTS	GRADE	QUALITY POINTS
A+	4.333	C	2.000
A	4.000	C-	1.667
A-	3.667	D+	1.333
B+	3.333	D	1.000
B	3.000	D-	0.667
B-	2.667	F	0.000
C+	2.333		

Detailed information concerning other Trinity grades and the College's academic standards and degree requirements is published in the Trinity College Bulletin, and the Student Handbook. You should become familiar with these publications and consult your academic advisor if you have any questions regarding the policies of the College.

### **Internship Registration**

To receive credit for an internship, a student must complete an Internship Contract. Students should use [Handshake](#) to make an appointment with Ruby Matheny in the Career and Life Design Center as soon as possible to discuss their potential internship opportunity. Internship registrations will not be valid until the internship contract has been approved by the Internship Coordinator. Once your internship contract has received final approval, you will be enrolled in the appropriate internship course, specific to the field in which your internship will be completed.

### **Research Assistantship, Independent Study, Mentorship, Thesis or Tutorial**

Students must use the [on-line Special Registration Form](#) to enroll in a research assistantship, independent study and Senior Projects, mentorship, thesis, or tutorial. Students cannot register themselves online for such courses. You will not be enrolled until the Special Registration Form, bearing all appropriate approvals and credit information, has been received by the Registrar's Office.

### **Wellness Experiences**

Students matriculating in Fall 2021 and after are required to complete four wellness experiences, with at least one experience in each of the three wellness categories. These "courses" will be listed on students' transcripts and can be found in the course schedule under the WELL subject code. Some wellness experiences are available for registration by students, while others (WELL 297, 298, and 299) are listed

in the course schedule and enrollments are processed by the experience supervisor. Check the notes section in the class listing for specific information about these experiences.
